

Give My Love to July

Summer sun's a-fadin' / Heavy clouds are laden
Rain's comin' down every day
Buried deep in slumber / Yellow, orange, and umber
August has faded away

Dreary days are comin' / Pleasant thoughts succumbin'
Winter's up to stealin' the light
Chilly breezes speedin' / All the birds a-heedin'
September's last call to take flight

Bye, bye, blue Summer sky / Give my love to July

It was laughin' kids a-runnin' / Pretty girls a-sunnin'
Now it's bundle up and bring out the kites
October's leaves a-dyin' (soon) / November snows a-flyin' (soon)
December means the longest of nights

Aw, and January hurts / But February's worse
'Till March summons Spring from her grave
April spills her showers / May parades her flowers
June returns the long days we crave

Bye, bye, blue Summer sky / Give my love to July
Leave me alone, I'm feelin' so sad / I just left the best Summer I ever had

It was neighbors outside talkin' / Lovin' couples walkin'
Now the "Howdy-do"s get stuck my throat
As the bitter winds of winter / Like a thousand metal splinters
Cut through the weave of my coat

Bye, bye, blue Summer sky / Give my love to July
Leave me alone, I'm fixin' to cry / I can't stand to see such a sweet Summer die

REPEAT FIRST VERSE

Bye, bye, blue Summer sky / Give my love, give my love, give my love to July
